

FY25 UA Budget

UA is fundamental to Alaska's economy and workforce development

UA makes high-quality, accessible, and af ordable post-seondary educat on available across Alaska.

UA leads the nat on in advancing the U.S. role in the changing Arct c.

UA is commit ed to providing a competat ve compensat on package to at ract and retain high-

passion for higher educat on.

Stable state funding allows UA programs to

communities, and state and national security.

UA holds the potent al to reshape Alaska's role in the Arct c and contribute signif cantly to the lives of people living in the Arct c.

Rising inf at on, insurance costs, and cyber-security

f xed operat ng costs.

Supporting State and Arctic Leadership

UA's three universit es each have strategic enrollment init at ves based on unique strengths and locat ons. From people with some credent als but no degree and other non-tradit onal students,

ef orts will at ract more students into the UA system and guide them through the complet on of

into leadership, humanit es, social sciences and

addit onal mental health resources at UAF and UAS to increase retent on, success and well-being. State needs require investment into workforce programs and Arct c research.

jobs that lead to the diversif cat on and

Our universit es and community campuses each carry a high-value and high-quality reputat on and are respected as innovat ve and responsive 'jewels' in the state and their region and communit es.

Our universit es and community campuses are ef cient and responsive with diversif ed funding focused

Demonstrat ng a commitment to employees is key to at act ng top talent. UA strives to make employee compensat on compet t ve to inst tut ons with similar
