### FISCAL TECHNICIAN

Job Classification Adopted: March 23, 2003 Revised: July 1, 2009

### JOB FAMILY CONCEPT

This family consists of four levels of fiscal work – entry level through advanced technical support and supervision. Levels are distinguished based on the complexity and scope of responsibilities, the degree of specialization, and the degree of independent functioning. This job family is distinguished from the Fiscal Professional job family by the primary responsibility for performing technical fiscal tasks. The Fiscal Technician job family addresses responsibility for the following functions:

- Data Entry
- Account review and reconciliation
- · Maintenance and reporting of financial data
- Processing transactions for payment
- Financial and regulatory compliance

and maintenance administration

may involve one or more of the functions listed, and may include

adjust, review, audit and enter financial and statistical data to maintain ag, cashiering, purchasing, travel, payroll records, and reports activities
