

PROGRAM DELETION

College of Engineering and Mines- Master of Civil Engineering (MCE)

I. Program Deletion Information

A. Name of person preparing request

Alexandra Fitts, UAF Vice Provost (affitts@alaska.edu)

B. Reasons for requesting deletion of program

Following the 2014-2015 Special Program Review, a decision was made to consolidate several degrees under the MS in Civil Engineering. While not a part of Program Review that year, the MCE was a logical program to include in this

1. Identification of Program: Should include a brief description of the program and its goals

The most recent catalog describes the M.S. in Civil Engineering, with the following curriculum requirements:

1. Complete the following admission requirements:
 1. Complete a bachelor's degree in civil engineering.
 2. International students must complete the following:

2. Admission Requirements: Should include a list of the admission requirements for the program.

When I call you, please let me know what time you will be home.

Report committee reports (attached)

The UAF Faculty Senate approved the following at Special Meeting #222 on April 24, 2017:

MOTION:

Discontinuation of Specialized Engineering Master's Degrees

The UAF Faculty Senate observes:

- A Civil Engineering MS will remain in the Civil & Environmental Engineering Department if their other MS and MCE degrees listed below are discontinued. Admissions were suspended in 2014 for these degrees. Many of these separate degrees are now available as concentrations within the Civil Engineering MS.*
- A Mining Engineering MS will remain if the Mineral Preparation Engineering MS is discontinued. The Mineral Preparation Engineering MS has not had more than one enrolled student since 2012 and admissions were suspended in 2014.

- A Computer Science MS will remain if the Software Engineering MSWE is discontinued. Admissions to the MSWE were suspended in 2012. The faculty who
