NEED FOR PROGRAM:

The Allied Health Program has been contacted by members of the Medical Assisting Advisory Committee with requests for specialized skills training in the emerging field of Medical Scribe. Locally and nationally, the healthcare industry is advancing steadily with electronic healthcare record-keeping (EHR), and there is a shortage of trained workers to fill the demand. The majority of the current workforce enters the field with a shortage of skills and formal training and employers must identify potential workers for on-the-job training to fill the gap.

	approved. The Medical Assisting Advisory Council members will help spread the word to their employers. Employers will then encourage and/or schedule employees to attend	
	classes. Advertise throughout UAF CTC and CRCD.	
	Annual conservation will be used a seek at IA Alliand Lipselsh Allianna monting	
	Announcements will be made at the UA Allied Health Alliance meeting.	
	Plans for phasing out program if it proves unsuccessful:	
	Current students in the program would be taught-out as required by the NWCCU. The majority of the courses would remain as they apply across the Allied Health programs.	
	Assessment of the program: Student evaluations of each class are required. Graduate surveys upon completion of the	
	program practicum are required by the national specialized accreditation for the Program.	
	Employers of program graduates are surveyed.
